University Of Hawaii At Manoa  
Un Of Hawaii At Manoa  
Office Of The Vp For Res And Innovation  
2444 Dole Street, Bachman Hall  
Honolulu, HI 96822

Customer ID: 19  
Certificate: --  
Site: 009  
UNIVERSITY OF HAWAII AT MANOA  
Type: ROUTINE INSPECTION  
Date: 19-JUL-2018

#### 3.125(a)

##### FACILITIES, GENERAL.

The facility is comprised of enclosures and a roof that are in critical disrepair. Some gates have openings with protruding wires, feeders are falling apart, with exposed nails protruding, and the roof where the ewes are is actively shedding corroded pieces of corrugated metal, with broken pieces on the ground, and others threatening to fall from above. These elements have sharp edges and falling pieces which present a risk of injury to the animals. The gates and fencing in disrepair also present an escape risk.

The facility must be constructed of such material and of such strength as appropriate for the animals involved. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. The facility should make necessary repairs or relocate the animals.

#### 3.131(c)

##### SANITATION.

In the animal enclosures and adjoining areas there was an accumulation of discarded materials. One room, within an enclosure, had discarded metal items and empty plastic sacs, and another had a bucket of cleaning products next to a pile of containers that appear to be discarded. Just outside another enclosure there was a large pile of discarded wool on the ground, that was wet and discolored.

The premises shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices. Accumulations of trash shall be placed in designated areas and cleared as necessary to protect the health of the animals. The facility should clean up the premises or relocate the animals.

This was a new site inspection. No regulated activity shall be conducted at this site until it is brought into compliance and approved.
