Certificate: **32-R-0007**  
Site: 001  
ALL CAMPUS SITES

Type: FOCUSED INSPECTION  
Date: 28-SEP-2020

---

**2.31(e)(3) Critical**  
**Institutional Animal Care and Use Committee (IACUC).**

An animal received dermatologic burns due to the use of a heating device during surgery. The device was not approved for use on the IACUC approved protocol. Lesions on the hindlimb and flank were treated successfully.

An animal died due to the use of a dosing chart not approved for use on the IACUC approved protocol. The approved chart in the protocol was not used. The unapproved chart resulted in administration of an anticoagulant overdose. The animal was treated, and appeared stable at the final evening check, but was found dead in the morning.

Deviation from IACUC approved protocols may result in animal injury and death. A proposal to conduct an activity involving animals must contain a complete description of the proposed animal use.

Correct by: Corrected prior to the time of inspection

This inspection and exit interview were conducted with Facility Representative and other facility personnel.
