PO BOX 425619
DENTON, TX 76204

Customer ID: **1482**
Certificate: **74-R-0040**
Site: 001
TEXAS WOMANS UNIVERSITY

Type: ROUTINE INSPECTION
Date: 01-MAY-2023

2.31(c)(5)

Institutional Animal Care and Use Committee (IACUC).

The facility does not currently have a functioning cage washer. The large cage washer became non-functional in March 2023. The small cage washer became non-functional in mid-April 2023. Without a functioning cage washer, the facility cannot adequately clean and disinfect animal cages.

The IACUC is responsible for reviewing all of the institution’s animal facilities at least once every six months, but more frequently if necessary, and making recommendations to the IO concerning those facilities. The lack of a functional cage washer should be communicated to the IO as soon as possible so that the washers can be repaired, and cleaning requirements can be met.

To be corrected by June 1, 2023

This inspection and exit interview were conducted with facility representatives.
